

tacit knowledge os
for kashmiri heritage artisans

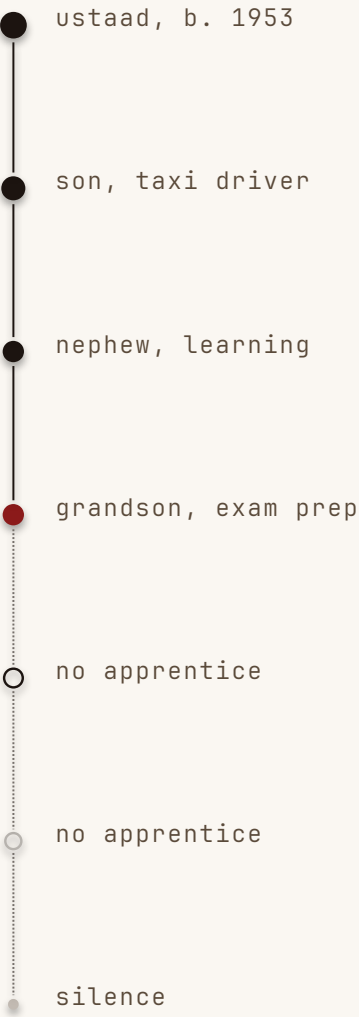

hunarmand

v 0.1 / hackathon build

nit srinagar / top 15

neon pgvector / hf spaces / render / vercel

12 yrs

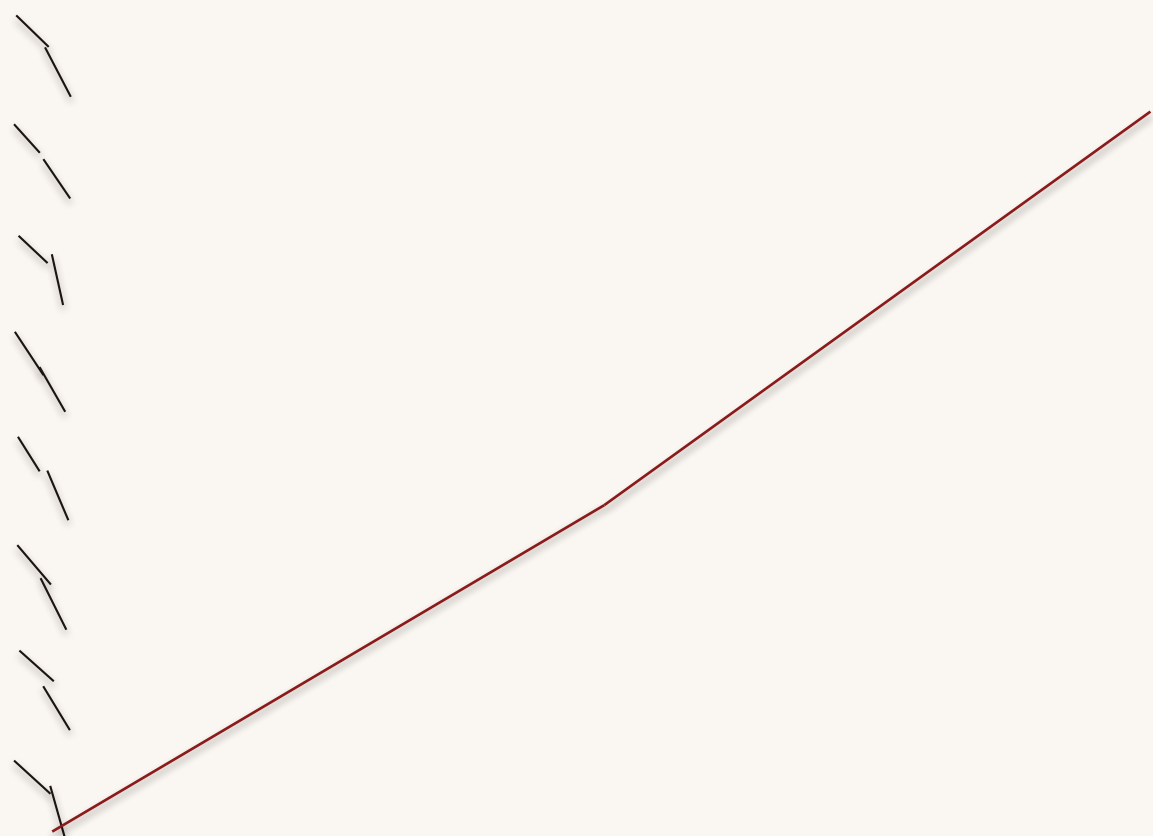

median time a kashmiri craft survives without an apprentice

talking to ten thousand workshops in the valley
is not a sentimental project. it is a deadline.

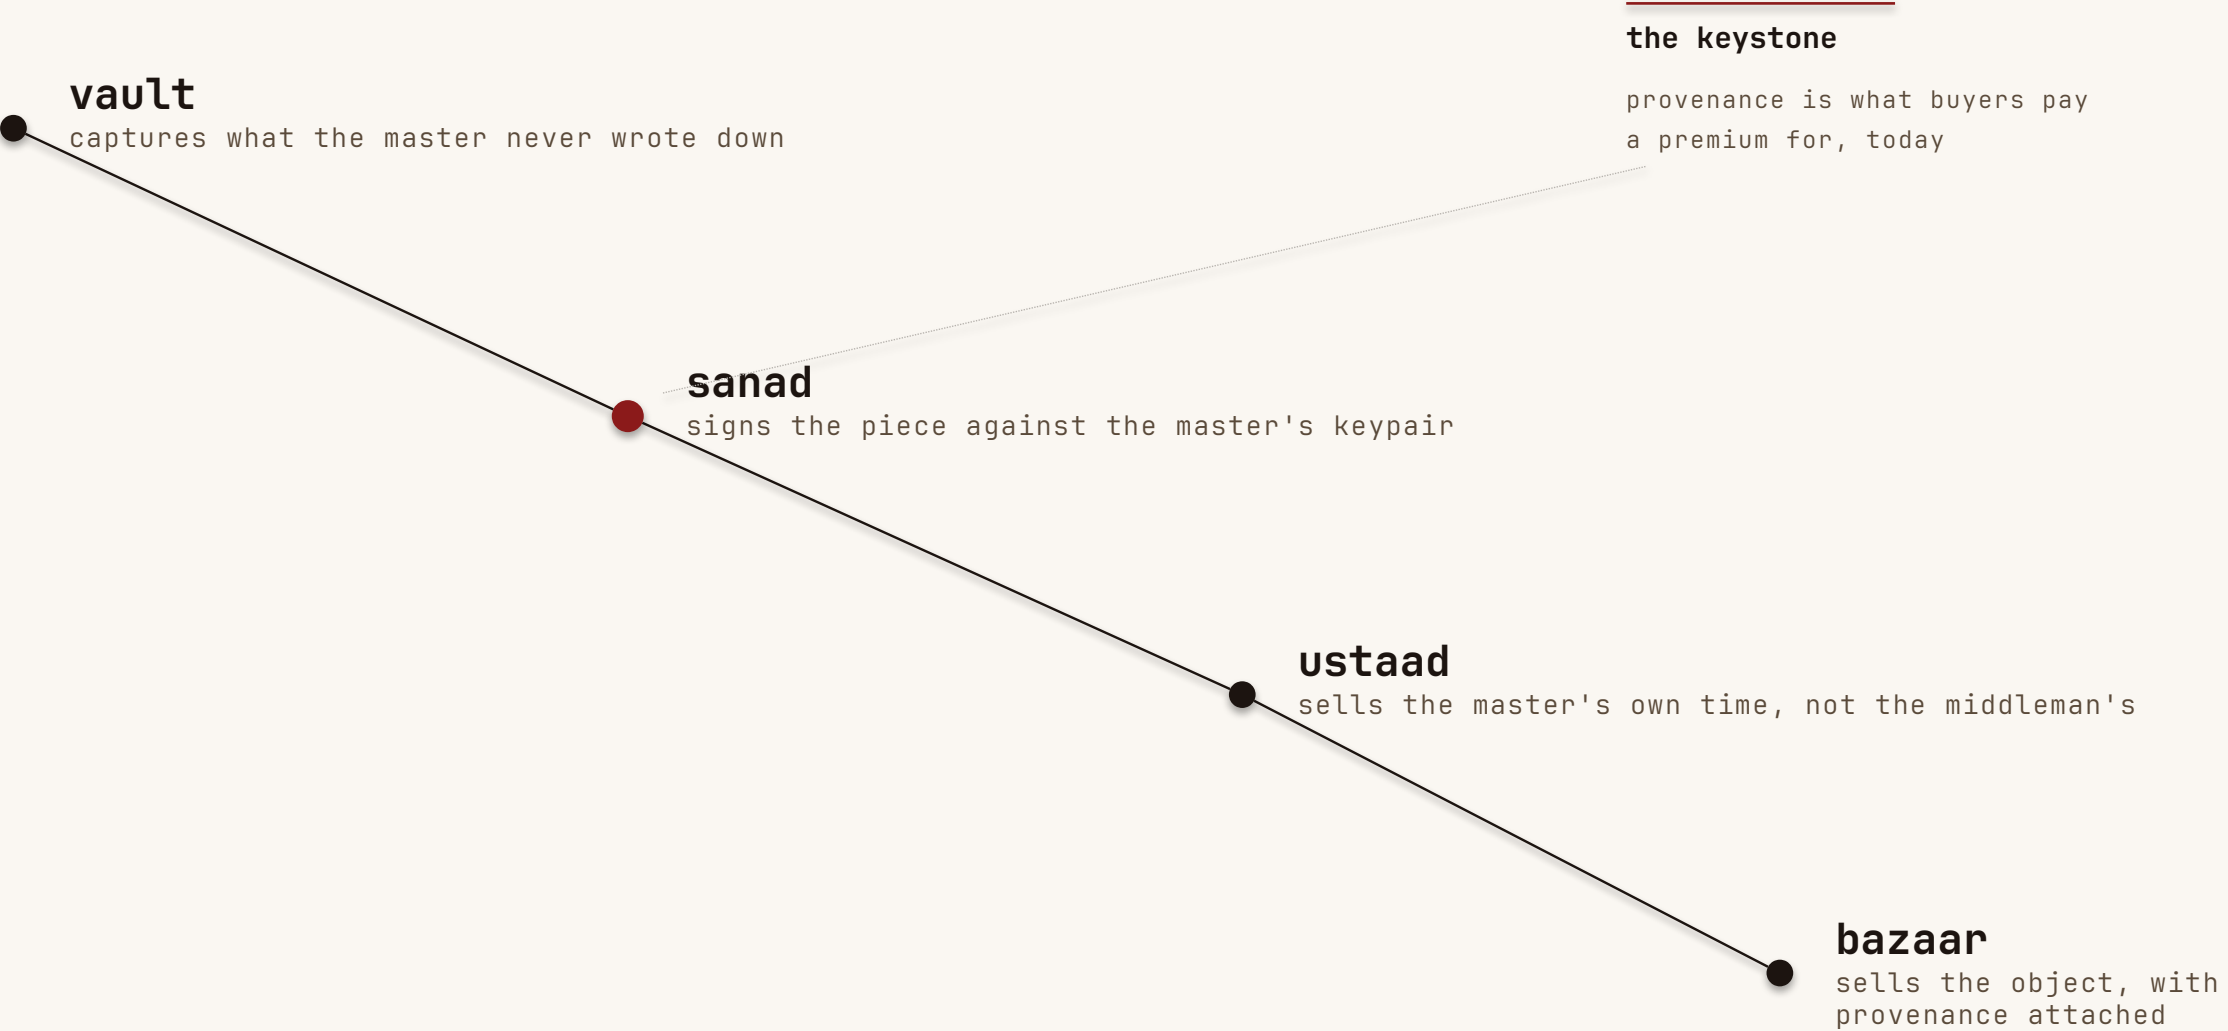

talim, kanihama, c. 1820

craft dna, hunarmand, 2026

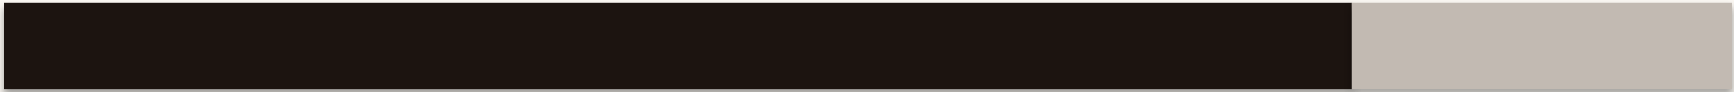

```
{  
  "piece":      "kani-buti pashmina shawl",  
  "warp":       "single, 28 ends per cm",  
  "weft":       ["pashmina, ladakh", "silk, varanasi"],  
  "knot":       "1940s srinagar twill-tapestry",  
  "dye":        ["walnut bark", "saffron stigma"],  
  "kid":        "mohammad-yusuf:1",  
  "signature":  "ed25519, jcs canonical"  
}
```

same instruction. seventh medium.

who keeps the value of a hand-knotted shawl

today

middleman chain, 70 to 85 percent

artisan, 15 to 30 percent

hunarmand

platform, 6 to 9 percent artisan, 91 to 94 percent

the artisan keeps the rest.

18

seeded artisan masters, four crafts, six villages

54

bookable workshops, four formats, six regions

2.8 s

median latency, ed25519 sign and persist, neon to vercel

nothing on these slides is a mockup.

● every number is queryable from the public api right now

we are not bringing foreign technology to kashmir.
we are upgrading what kashmir already invented.
